Re: National Technical Assistance Center on Transition: Collaborative (NTACT: C) is Funded – for Item Agenda 7.

Message from Deanne Unruh, Ph.D.

*Research Professor & Associate Vice President for Research
Co-Director NTACT: C*

Hello all: I know news travel fast and in unknown ways and many of you may already know; but just about 24 hours ago, we were notified that we were awarded the National Technical Assistance Center on Transition for Students and Youth with Disabilities. I just wanted to reach out as you provided a letter of support for our submission. We know that our work has impacted youth and students in their life trajectory, however, we also know that the outcomes for our students are not where they need to be. There is much to be done, and we hope to move the needle forward even further.

Our team remains quite similar with partners from George Washington University, Portland State University, University of Kansas, University of Maryland, University of North Carolina-Charlotte, and University of Oregon. We will be working to implement our new and improved plans and news of those will come later. Again, Thank you, as I know your support strengthened the submission.
