Ashley De Lorea
Director of Disability & Volunteer Programming

My name is Ashley De Loera, and I am the Vocational Rehabilitation Counselor III for the Supported Employment Team. I have worked for the State of Nevada for almost six years. With ten years of experience working with adults and children with disabilities, I started my profession journey as a Behavior Consultant. My passion for working with individuals with disabilities grew and it led me to gain experience as a Career Coach and Job Developer. This wide range of experience has helped me bring my knowledge and expertise to the State of Nevada. It is an honor to be serving as a member of the NSRC and I am grateful for this opportunity.
